

Citizens science: promoting inquiry-based learning and community outreach

The Science and Learning Technologies Group at the Faculty of Education in Science and Technology is recruiting outstanding students for MSc and PhD research.

The research involves the design, development, and implementation of advanced applications for collaborative learning and Citizens Science projects.

Diligent and motivated students who wish to change the way science education is perceived and conducted, are welcome to contact [Asst. Prof. Miri Barak](mailto:Asst.Prof.Miri.Barak) at: bmiriam@technion.ac.il
