

**Diabetes and Metabolism Clinical Research Center of Excellence
is hiring a**

PhD Student

The laboratory studies the role of Obesity and Diabetes in the development and progression of Cancer. Studies utilize in vitro cell culture and cellular signaling, molecular biology including microRNA and epigenetic technology and in vivo mouse models that require genotyping and phenotyping.

The potential candidate should have some experience in these and other techniques.

Interested candidates should apply by sending an updated resume and the names and addresses of 3 references, to:

**Prof. Derek LeRoith, email: d_leroith@rambam.health.gov.il or
derek@tx.technion.ac.il**
